

ZR-2 DEAD REACH NEW YORK FRIDAY

Naval Authorities Preparing
to Receive Bodies Coming
on British Cruiser.

By the Associated Press.

NEW YORK, September 13.—Comrades in arms are preparing to pay their last tribute to the American officers and men who plunged to their death with the ill-fated dirigible ZR-2.

The British cruiser Dauntless will bring the bodies of the sixteen American sailors to the New York navy yard from England next Friday afternoon. There American bluejackets will receive their own dead, and the following afternoon will accord them the full naval honors due those who gave their lives in line of duty.

A fleet of destroyers, aircraft and possibly several battleships will put out from the navy yard to meet the Dauntless into port.

A special chapel is being built to receive the flag-shrouded caskets. There two guards of honor, each a hundred strong, picked from marines and seamen, will watch over the dead until the memorial service.

Will Come Home as Unit.
The victims of the disaster will come home as a unit. It originally was planned that the Dauntless should parade on the high seas to consign to the deep the body of Lieut. Commander Emory Cole, in accordance with his expressed wish. It was decided, however, that his body should first rest on native soil to share with his dead comrades the sorrow of the homeland before it is laid to rest in the Atlantic. When the burial later is made it will be from the deck of an American warship.

Plans for the memorial service, as announced by Capt. C. T. Vogele, commanding officer of the New York navy yard, through his aid, Lieut. John D. Bennington, call for services at which high government officials, headed by the Secretary of the Navy, will participate. In addition, gates to the navy yard will be thrown open to the general public for the first time since the war.

Foreign Envoys to Attend.
Joining with sorrowing Americans will be representatives of foreign governments. Officers and men of the Dauntless will attend in a body, while Capt. S. B. Bailey and Air Commander L. E. O. Charleton, attaches of the British embassy in Washington, and Consul General Armstrong will be among the guests.

Moreover, the French cruiser, Ville d'Yeu, now in American waters, will be moored in the yard, so that her crew may attend the ceremony, and officers of the Brazilian battleship Minas Geraes have signified their intention of being present.

The yard's athletic field has been chosen for the ceremony. Near the caskets will be placed 150 chairs reserved for relatives.

WILL ATTEND ZR-2 PROBE.

Commander H. T. Dyer, American naval inspector during the construction of the dirigible ZR-2, has been designated to represent the Navy Department before the British committee which will investigate the disaster. The investigation is expected to occupy two months.

ESCAPED BANDIT FOUND.

Charles Schultz, in Toledo Postal Case, Captured.

TOLEDO, Ohio, September 13.—Charles Schultz, one of the three men convicted of conspiracy in connection with the million-dollar post-office robbery, who escaped from the Lucas county jail on Labor day, was captured at Crissey, Ohio, twelve miles west of Toledo, shortly before noon yesterday by a squad of Toledo police, federal authorities announced.

Schultz was captured in an attic of a farm house at Crissey. He was caught by Inspector Leutz, Joseph Delehanty, acting chief of police, and ten detectives of the Toledo force, who made a trip there early this morning.

Schultz made no resistance, and when brought to the police station at 11:30 o'clock was smoking a cigarette and smiled and nodded to acquaintances. No trace of the other two escaped men was found.

The shipment consisted chiefly of rice and flour.

RELIEF FOOD DAMAGED.

Seventeen Carloads Delayed by Freight Wreck.

MOSCOW, September 11.—Seventeen carloads of American relief administration supplies were damaged and delayed by a freight train wreck late last night between Riga and Moscow. The amount of the loss is unknown. The shipment consisted chiefly of rice and flour.

There were two guards of honor, each a hundred strong, picked from marines and seamen, will watch over the dead until the memorial service.
